Submitted To:	Mr. Usman Ahmed

Experiment # 1
Installation Of Ubuntu

Objective
To Perform Lab Task Of Operating System Lab.

Software Tool
1. Ruffus(To Bootable USB)
2. USB
3. Ubuntu ISO Image

1 Theory

To perform lab tasks of the Subject "Operating System", I have to install
the ubuntu Operating System on my laptop as per Instruvctor Instructiond.
To keep the Microsoft Windows on my laptop too, I Installed Ubuntu along-
side with my Microsoft Windows but in different drives. I installed ubuntu
using an ISO Image of its Latest Version 16.04.4 by making a Bootable USB
using Rufus as tool for making a USB Bootable.

2 Task
